Dear Sir,

I've heard some excellent reviews of the computer course you are running and I'd like to express my interest in the course. I think I would be an ideal student because I've already learned some things with Be Connected. The things I would like to learn are; How to use email, How to stay safe online and How to search the internet. If you have a place available on a Thursday that would suit me best.

Yours faithfully,
John Learner
