

Password Manager Apps Top Tips

5 steps to help you use a password manager app

- 1** Go to the online account you want to log in to. For example your online bank or social media account.
- 2** Open your password manager app.
- 3** The password manager app fills in your saved passwords for you.
- 4** Select log in.
- 5** Success! You are now logged in to your online account.
